

CERTIFICATION CENTER

Nationally recognized, industry-specific certifications are one of the best identifiers for establishing potential workforce candidates. Digit All Systems is the only public testing facility in Baltimore City that utilizes 5 different testing platforms such as Certiport, Thompson Prometric, Castle Worldwide, PAN, and Pearson Vue. Partnerships with these top testing organizations allow Digit All Systems the unique ability to train and administer third party validation of its curriculum. This unique quality gives students the advantage of testing in a familiar and local environment.

Certiport offers individuals current and relevant digital skills and credentials for the competitive global workforce. These solutions include the official Microsoft Office certification programs, the Microsoft Technology Associate certification program, the Adobe® Certified Associate certification program, the CompTIA Strata™ IT Fundamentals certification program, the Intuit QuickBooks Certified User certification program and the Certiport Internet and Computing Core Certification (IC³®).

Thompson Prometric is the recognized global leader in technology-enabled testing and assessment services. In fact, they invented the industry. Prometric offers test design, test delivery and data management services to clients around the world. In 2008, they delivered more than nine million exams through a network of over 10,000 testing locations in more than 160 countries. With more than 250 different evaluations in academia, information technology, and government, Thompson Prometric is an enhancement to our organization.

Castle Worldwide provides class examination delivery, design, and development services to certification and licensure organizations, government agencies, corporations, educational institutions, and trade and professional associations. Castle Worldwide has almost 70 different tests, the majority of which consists of Registered Nursing, Regulatory Management, and Physical Training.

PAN is a provider of wide-ranging talent acquisition, evaluation and development solutions for corporate and government clients worldwide. For more than a decade, PAN has helped thousands of organizations—from small businesses to large Fortune 500 companies and federal government agencies—hire and grow people through their comprehensive assessment catalog, robust technology solutions, talent measurement services and proctored testing services. Administering mainly to government certifications, PAN delivers 150+ exams to organizations such as USPS, TSA, FBI, US Marshals, and Homeland Security.

Pearson VUE delivers millions of high-stakes tests across the globe for clients in the licensure, certification, academic admissions, regulatory, and government testing service markets. It boasts the world's leading test center network, with over 5,000 test centers in 165 countries, 230 of which are fully-owned-and-operated Pearson Professional Centers. Pearson Professional Centers utilize a patent-winning design which was created specifically for high-stakes testing and offers a carefully controlled, consistent testing environment. Pearson Vue supplies some of the most important information technology certifications for organizations such as Cisco, CompTIA, Oracle, and Microsoft.

FACT: With the importance of certifications growing every year, these partnerships make Digit All Systems the **largest public testing resource in Maryland.**
